

Mr. Vinod Kumar Vyas is an esteemed Senior Lecturer specializing in Textile Processing and currently serves as the Head of the Department of Textile Processing. With an extensive career spanning 29 years, imparting knowledge at esteemed institutions such as IIHT Guwahati, Jodhpur, Varanasi, and Bargarh.

Furthermore, he has contributed significantly to the field through co-authoring a book on Tie and Dye of Rajasthan, showcasing an in-depth understanding of traditional textile practices.

In addition to academic endeavours, he has actively participated in the development of study materials for practical applications in Textile Processing, notably for Diploma in Handloom and Textiles Technology.

With over a decade of industrial experience as a Dyeing Executive, at various prestigious industrial establishments such as DCM, Delhi, Rajasthan Textile Mills and Lal Imli B.I.C Kanpur.

Mr. Vyas has also spearheaded numerous workshops in the domain of textile processing, covering a wide array of techniques including Tie and Dye, Block Engraving, and the application of Madhubani art on textiles. These workshops have been instrumental in providing hands-on experience and practical skills to diploma students, enriching their understanding of traditional and contemporary textile practices.

Furthermore, he has been actively involved in various projects aimed at advancing the field of textiles. These include product development initiatives focused on Eri silk, exploring innovative avenues for the diversification of jute material, and designing development projects centred around Salawas Dari.
